

ACCEPTING NEW CLIENTS

**SPEECH, LANGUAGE, COMMUNICATION, SWALLOWING & HEARING CLINIC
LOCATED ON THE CAMPUS OF CONCORDIA UNIVERSITY WISCONSIN**

As a teaching institution, Concordia is committed to providing quality training for future speech-language pathologists to positively affect communicatively challenged individuals and their families. With support and supervision of licensed speech-language pathology and audiology faculty members, our students and clinicians will assess, diagnose, and treat speech, language, social communication, cognitive-communication, and swallowing disorders in children and adults.

Service delivery areas include all aspects of communication and swallowing, including speech production, fluency, language, cognition, voice, resonance, feeding, swallowing, and hearing.

We are now looking for clients (children and adults) needing diagnostic evaluations as well as those looking for ongoing therapy services. There is a fee for service, but we do offer a payment plan and sliding scale.
