

A.I. Language Learning

A.I. CS Club Subgroup

Traditional Language Learning Applications

- Traditionally, learning a language takes time and many outside resources.
- How do you effectively practice speaking?
- How do you keep track of words you know so you don't repeat them as often?
- Often lacks in two-way communication.

The Babbel logo, featuring a white plus sign followed by the word "Babbel" in a white, sans-serif font, set against a solid orange square background.

duolingo

Our Application

- Use A.I. to develop more strategies for language learning.
 - Personalized verbal and text chats with a Model.
 - Record of what words that you have already mastered.
 - Scenarios

Goals

- Current language learning applications aren't bad.
- We seek to add resources to make some aspects of learning easier.
- This will help to make learning a language online more conversational.
