

Statement of Purpose Instructions for all International Student Applicants

In your own words:

- 1) Succinctly describe your educational background and experience in a single paragraph
- 2) Succinctly describe your work experience, if any, in a single paragraph (graduate student applicants)
- 3) Explain why you are interested in the major you are pursuing
- 4) Explain why you wish to pursue the program specifically from Concordia University Wisconsin.

For Graduate Students: A “statement of purpose” which does not indicate your interest in the specific graduate program or does not address reasons for applying to Concordia University Wisconsin will result in the rejection of your application.

For All Students: A well written and meaningful “statement of purpose” will enhance your admission portfolio.
