

## PRE-COLLEGE *courses*

### School of Arts and Sciences

**COMM 2100 Interpersonal Communications** | 3 credits

This course studies why communication breaks down in interpersonal relationships, focusing on such topics as perception, self-concept, non-verbals, listening, gender, self-disclosure, power, and conflict. Assignments lead students to a greater awareness of their strengths and weaknesses as communicators.

**ENG 1030 Civilization and Worldviews: Literature** | 3 credits **(spring offering only)**

Civilization and Worldviews Literature provides practice and experience in reading three primary genres of literature: fiction, poetry, and drama. The purpose of this course is to enable the student to enjoy and appreciate a wide spectrum of literature, with an understanding of how best to undertake various types of critical analyses of a work.

**ENG 1040 Introduction to Writing** | 3 credits

Introduction to Writing is designed for the student with a good background in writing, focuses on the process of written expression and gives practice in dealing with the various modes of discourse from free writing through research.

**HIST 1000 Intro to American Civilization** | 3 credits **(fall offering only)**

American Civilization is a survey of the history of the United States from pre-Columbian America to the present. It will explore political, ideological, social and religious changes that have occurred in the American story.

**Mathematics 2050 Statistics 1** | 3 credits

This course presents the basic methods of sampling and interpreting data, probability, the normal distribution, correlation, hypothesis testing and confidence intervals.

**POLS 2010 American Government** | 3 credits

American Government studies the basic foundations and underlying principles of American national, state, and local government.

**PSY 1010 General Psychology** | 3 credits

Introduction to Psychology is an introductory survey course acquainting the student with the procedures, principles, theories and vocabulary of psychology as a science.

**REL 2010 The Old Testament** | 3 credits

The Old Testament is an overview of the Old Testament intended to acquaint the student with its background, content, and messages.

**REL 2020 The New Testament** | 3 credits

The New Testament is an overview of the New Testament intended to acquaint the student with its background, content, and messages. The New Testament is read with a focus on the life of Jesus, his teaching and miracles, death and resurrection. The other major people of New Testament are also studied through their writings, especially the apostles Paul, Peter, and John.

**Computer Science 1010 Foundations of Computer Science** | 3 credits **(fall offering only)**

Foundations of Computer Science provides a survey and overview of Computer science via its grand ideas. The concept of a computer system as a combination of hardware, software, and people is explored in detail. The computer system as a tool for personal and professional problem solving is emphasized. Foundational computer science issues along with current technology, terminology, ethical issues, application, and hands-on computer use are explored. Students select a topic of interest as a term project to augment class discussion and laboratory experiences. CSC 1010 serves as the foundation for all further CSC courses and is suitable for all students as an introduction to the fascinating world of computer science. CSC satisfies course requirements in mathematics (except for CS/IT majors).

### **SOC 1010 Introduction to Sociology** | 3 credits

Introduction to Sociology is an introduction to the study of social groups and social relationships. The course analyzes basic sociological concepts to acquaint the student with the fundamental laws governing human relationships. Problems of social structure, social processes and social motivations will be considered.

## **School of Business**

### **ECON 2200 Macroeconomics** | 3 credits

This course presents principles and theories of macro-economics with emphasis on economic policies and their impact on the national welfare. Special attention is given to the application of economic thinking methods to solving the macro-economic problems.

## **School of Education**

### **ED 1102 Foundations of Education** | 3 credits **(spring offering only)**

This course is a critical examination of the forces that have shaped formal and informal education, especially as they affect American urban education. The course will review historical, philosophical, theological, social, scientific, and technological contributions that have influenced the American educational system. From this foundation, students will be encouraged to explore contemporary issues in American education as they consider their future roles in the teaching profession. This course will be taught with computer technology integrated throughout the course. This course serves as the first required professional course for teaching education students at Concordia University Wisconsin.

## **School of Pharmacy**

### **PHAR 1000 Introduction to Pharmacy** | 1 credit

Introduction to Pharmacy is an introductory course intended for students who are interested in the profession of pharmacy, regardless of previous experience in the profession. This course is designed to help you understand the progressive world of pharmacy and the profound impact pharmacists have on patient care. Whether you are considering pharmacy as a potential career path or are just interested in the subject, this course will open your eyes to the exciting profession of pharmacy. This course will introduce you to the history of pharmacy, the pharmacist's and technician's role in patient care, drug discovery, pharmacy law, and many other important pharmacy topics.
