To do a search that covers most of the library book & article resources try Summon

http://cuw.summon.serialssolutions.com

To learn more, please watch this 1 minute video Introducing Summon

Tips for selecting search terms in Summon:

Using quotation marks will keep terms together
The word AND will be assumed between any terms not in quotation marks

Limiting your search to peer reviewed articles in Summon:

After your do you search click “Scholarly & Peer Review” in the Refine your search box on the left side of the screen.

Finding research articles in Summon: You may use “research” or “study” as search terms, but you may also do your search and then select “Medicine” in the Discipline box.

After the search has updated Scroll down the screen until you see the subject limiter box on the left and click the “More” option under it.

A column of subject headings will appear between your limiters and your results. You may wish to sort the subject terms alphabetically.

Select “research” & “studies” to include both those subject terms in your results.

Books & Ebooks: (CUW’s book collections can be searched using Summon)

Ebookcentral and EBSCO eBooks are searchable collections of electronic books on a variety of subjects including Exercise Physiology.

If you find books in Summon that are not owned by CUW you may request them by clicking on the link in TOPCAT. It takes 1-2 business days to get an item here. You may also travel to the other SWITCH libraries and check out items directly with your FALCON One card.

Reference & Circulating books about Exercise Physiology can be found primarily under the following Library of Congress class number areas: QP 301 RM 725

Web Pages:

American Society of Exercise Physiologists http://www.asep.org/

Other Databases:

(Most of the contents of these databases can be searched using Summon)
